PURPOSE: Register disagreement with a position
TOPIC: No Answer
AFFILIATION: Private Citizen
SUBJECT: Genetically altered food

[Message]

I was astonished to learn that yourself and the Vice President had pressured European countries to accept our genetically altered food. I still find it a travesty of justice and against our constitutional rights, for the FDA to prohibit stores from calling their milk "Bovine Growth Hormone Free". It is my right to know what is, and is not in the food I eat and give to my children. I find this a Nazi type experiment and a complete disregard for the common man in favor of Big Business. I find this as the most important part of Environmental issues, that which effects us most directly, the food we eat, the water we drink, and the air we breathe. I found you much better than I found any Republican candidate, but I will watch closely and Vote with these things as my main issue.
